New Meat Market

Franc KING has opened a Meat Market on South Chestnut Street in Hays.

This institution is NOT a BUTCHER-SHOP. It is purely a Meat Market, where nothing is done save the carving of the carcass and its sale to the people.

It is the most sanitary, clean, up-to-date Meat Market in Western Kansas.

We invite the public AT ALL TIMES to inspect our market thoroughly. Yours for Cleanliness

R S MARKWELL

The first advanced step at our State Normal under the new administration, the object education of the younger children; the education of the rural teacher how to make their school interesting and a 'social centre' for pupils and patrons of the school, occurred Wednesday evening when Prof. Matthews, the new professor of the new term, exhibited to the pupils of the Rural district school and Model school of our State Normal the Edison School Kinetoscope, a small motion picture and magic lantern machine for school purposes that throws a clear picture 6 foot square. The old time slides wonderfully magnified, or the films showing 15 minutes, same as in the big machines. And the supply of films is inexhaustible, most of them educational or scientific for the school, while the comic, and others are for general entertainment.

And the Hays State Normal is the first and ONLY school in Kansas to have one. To be tried out here by Prof. Matthews, and if satisfactory and pleasing to the teacher scholars we may find it helping solve the social centre problem in our country schools, who will not them in, as not expensive and used in any school with acetylene gas made in the school-house.

J. S. Markwell of our city has one of the machines on display in his store. And has secured the first and sole Agency for Kansas.

Chautauqua

Wednesday, Aug. 6th

It is only a month off. It is the annual treat and rest. We close our business houses, we have our friends come see us and for 7 days, one week of the 52, we set there afternoon and evening enjoying life, at a small cost; letting those on the stage do the work so invite your friends, let the whole family enjoy it. Get season tickets, it admits anyone in the family, a week of clean education and entertainment at small cost. Some one in the family will want to attend every meeting.

The opening afternoon the celebrated Gifford Pinchot opens the talks. He is one of the men most talked of. Thursday afternoon L. H. Weir, the Field Secretary of the American Playground and Recreation Association of Phila. is to talk on a subject close to every father and mother 'Recreation and how to live'.

Sunday evening Prof. W. D. Lewis, principal of the Wm. Penn High school for Girls of Phila. talks of The School and the Citizen, and he is one of the progressive school men of the day and his talk in line with our new Regent and new Normal Principal.

Last year at the Chautauqua we had Bryan and Democracy and it was entertaining and educational in the way of information. This year, on Friday Aug. 8th, we are to have Republican Vs. Progressivism, the now famous debate between ex-congressman Chas. Scott and editor Henry Allen of Wichita. They talked at the Yale center and other Chautauquas last week and the big tent wouldn't hold the crowd, and the K. C. Star says editorially: "But the debates themselves will be a real source of pleasure to the people of Kansas, the new women voters as well as the men. Two of its very ablest young men are contending for their political principles in these debates, and the big crowd that heard them yesterday is evidence of the fact that they will be the topic of chief interest in Kansas this summer."

If you buy a \$2 season ticket to the Chautauqua you get to hear this hot debate for only 8 cents. Get a ticket. They come here on the evening east train and from 8 sharp until the debate Rogers & Grilley, two old favorites will give you a 50 cent entertainment for 8 cents if you have a \$2 season ticket. Be sure and get one. It will be remembered that last winter, Neils Darling, the business man of Oklahoma was to speak at the Normal, but a mistake in dates kept him away. So popular is he that our Chautauqua sends him here Sunday afternoon, Aug. 10th to talk.

He spoke at the Chau. at Garden city last week and their paper says: "Every Chau. presents varied talent. It is a hard matter to please every taste. Some attractions will particularly make good with one class, others will not."

It is a safe assertion that one speaker who pleased practically the entire audience was Neils Darling who spoke on a business topic.

"He told his immense, appreciative audience some unpleasant truths, but in such a way as to give no offense. His keen display of humor always took off the edge. He attacked the mail order house, showing it up in its true colors. He told where the responsibility lay for its growth and increasing power. He spoke of the duty of the merchants to their trade and what loyalty meant on the part of a community's residents. It was a talk designed to stimulate everyone and came pretty near doing it. Garden city will be better for his being here."

If you buy a \$2 season ticket you hear this grand talk and an hour can't be by the famous Gretchen Myers Co. with her as soprano, Senor Fabrizio as violinist and Clara Blakeslee as pianist at a cost of but 15 cents.

ELLIS, Kansas

On Tuesday the new Educational Administration Board, E. T. Mackney, Mrs. Cora Lewis and Ex. Gov. E. W. Hock, with Prof. D. M. Bowen as the Secretary, took charge of the State Educational Institutions for the next four years, with office in the State house. The man to take charge of the Agricultural department to succeed Prof. Main, and the new Principal, to take charge Sept. 1st, will be named in a few days.

And as there has been so much racket and story that the Democratic state administration are going to kill off or cripple the Hays State Normal, it is expected that the Board, with state chairman Henderson Martin and maybe Gov. Hodges will be here to introduce to the Faculty, the students and our citizens at Chapel on the opening day of school in September, the new Principal, and tell what they propose to do for the Western Kansas State Normal and what will be expected of the Faculty and our people.

President Butcher of the Emporia and this school took his place July 1st, and installed with appropriate ceremonies, the Board being present.

President Mackney, in an interview about their coming work, says: "We intend to put every school under the State government into closer relation with the people. As to the HAYS State Normal. We are working in conjunction with Dr. P. P. Claxton, national educational Commissioner, to solve the problem of Rural Education in the HAYS school in Ellis county, out in Western Kansas."

"We want to make this school the Head of the Rural schools in that part of the state, to bring it into the closest kind of co-operation with the coun schools, to educate teachers especially for rural school work and to teach Agriculture. We hope to make the HAYS Normal School the center of Farm education for that part of the state."
